Inland Packaging Wins Record 19 Awards in 2017

Inland's labels and packaging were recognized with 19 industry awards

La Crosse, Wis. – Inland is very happy to share that 2017 has been a record year for us. Our labels and packaging have received a record 19 awards this year from 8 different industry organizations.

Inland was recognized for a variety of attributes including exemplary printing, high quality graphics, technical achievement, innovative processes, and excellent seaming. Awards were received for shrink sleeves, pressure sensitive labels, flexible packaging, in-mold and cut and stack labels covering the entire product portfolio.

“We are able to submit and be recognized for our labels and packaging because of the partnerships that we have built. Our customers bring gorgeous designs to us and by working together with substrate, ink and coating suppliers we are able to achieve their desired end result,” stated Mark Glendenning Inland’s CEO. “Our employees are very proud of the work that we do for our customers, so there is nothing better than being able to recognize their hard work with industry awards.”

Each year packaging industry organizations seek submissions from printer/converters, brand owners and materials suppliers for a variety of award competitions to recognize achievements in a variety of categories.
